

PANACEA PLASTIC SURGERY

Kimberly Singh, M.D. | Nour Abboushi, M.D.
901 Bernina Ave, Suite 1, Atlanta, GA 30307
Phone: (770) 929-0634 Fax: (770) 929-8716

Lymphatic Drainage Treatment

For optimal results, Dr. Singh and Dr. Abboushi recommend treatment 2-3 times a week for 6 weeks post-surgery. In some cases, additional treatments may be necessary.

	Single Treatment	Package of 6 (save 10%)	Package of 12 (save 15%)
One Area	\$75	\$405	\$765
Two Areas	\$150	\$810	\$1530
Three Areas	\$225	\$1215	\$2295
Four Areas	\$300	\$1620	\$3060

Benefits of Lymphatic Therapy Made by Hydrafacial

- Removes toxic buildup to reveal healthy looking skin
- Helps detoxify the skin
- Decreases inflammation
- Removes unwanted buildup
- Optimizes skin health

HydraFacial provides you with the physical movement of lymphatic drainage treatments as well as the secondary benefit of suction. The lymphatic system is one of your body's tools to get rid of toxins and waste that accumulate over time. The primary function of this system is to rid the body of "lymph," a colorless fluid containing white blood cells. The HydraFacial machine helps to move more lymph (a clear fluid that acts to remove bacteria and other particles) out of the area. This treatment can remove toxic buildup, detoxify, decrease inflammation, and optimize skin health for a smoother flatter result.

While the actual Lymphatic Drainage Treatment takes about 15 minutes for one area, Lymphatic Drainage Treatments are scheduled based on the number of areas and allow ample time to help comfortably remove the surgical garment(s), provide the lymphatic drainage treatment and comfortably get back into the surgical garment(s).
